

SUMMER PROMOTION 2026 AT HOTEL RIVIERA – LIDO DI VENEZIA

The question of where to spend a few peaceful and above all safe days has never been more relevant than this year: wars, tariffs, lack of security, overpriced flights and hotels ... all factors that further narrow the already limited choice of possible travel destinations!

With 8,000 km of coastline, there is always a spot at the sea somewhere in Italy – if you are happy spending the whole day on the beach soaking up the sun until aperitivo or dinner time.

But if you are looking for something that satisfies body, soul and mind – how about Venice and the Lido, where holiday, history, culture, art and beauty all come together?

Just 12 minutes by vaporetto from the magnificent Piazza San Marco, the Lido – the largest of the lagoon islands – welcomes you with its golden beaches, tree-lined avenues and countless bars, cafés and restaurants for every taste. For the more active: swimming, snorkelling, scuba diving, surfing, rowing, sailing, Venetian rowing, volleyball, bocce, tennis, padel, football, equestrian sports, cycling, fitness trails, archery, shooting range, gyms and countless running routes.

To regenerate soul and mind, you can birdwatch in the nature reserve at the Alberoni, at the southern tip of the island, and of course marvel at the Venetian magic of colours and architecture and enjoy the countless world-famous museums. The icing on the cake: excursions to the islands, among which Murano, Burano and Torcello are just the best known.
